

## WATERPROOF TIMER

CDN expands its precision timer line with the Waterproof Timer (TMW1). Featuring a heavy duty construction that is shatterproof and both audio and visual alerts, it counts up or down for up to 100 minutes in minutes and seconds.

The Waterproof Timer is designed to meet the rigorous demands of commercial kitchens. The timer withstands moisture and humidity, and it continues to function with accuracy if it gets splashed. It comes with a display stand and magnet for easy attachment to kitchen appliances.

The large digital read-out lets the user view the timer from afar, and the loud alarm, the loudest CDN offers, enables the user to hear above the noise of the kitchen. To ensure the alarm is heard, it sounds for 90 seconds, and a flashing red light further alerts the user that the proper time had elapsed.

### FEATURES

- Counts up & down
