

OVENPROOF MEAT THERMOMETER – GLOW

Designed for food safety and savory, tasty results when roasting meat or poultry, the CDN Ovenproof Meat Thermometer (IRM200-GLOW) features a glow-in-the-dark dial that makes it easy to see in the oven in low light conditions.

NSF® Certified, this model is extremely easy to use, with an extra large 2-inch/5.1 cm dial with a durable laboratory glass lens, and a 5-inch/12.7 cm stainless steel stem. It is safe for commercial dishwashers, and features a handy temperature guide and target range indication to take the guesswork out of roasting.

The CDN Ovenproof Meat Thermometer stands out as a value over time, because it can easily be recalibrated with a simple boil test. This means that the consumer can count on accurate temperature readings year after year.
